- Communicate with Attorney
- Spanish Speaking
- Other services available

Homestead Medical Experts is offering emergency bail support services to New Jersey Criminal Defense attorneys. Homestead has set up a network of on-call licensed social workers ready to help with the pre-trial processes. Our on-call Social Workers, once informed of the details of your client, will perform a comprehensive biopsychosocial interview, and if needed, interview collateral. All of our social workers go through training on the handling of privileged information. The combination of professional know-how as well as quick turnaround time is the tool you will need to overcome the obstacles of bail reform.

 **Step 1  
Contact**

When you contact Homestead Medical Experts, we will collect information in order for us to perform a comprehensive biopsychosocial. Using an intake form available on our website, all you need to do is collect the required information and return via fax or e-mail.

We will need information pertaining to the defendant and the crime as well as name and contact information for all collateral to be interviewed. Once we receive the pertinent information, we can begin the process.

 **Step 2  
Interview**

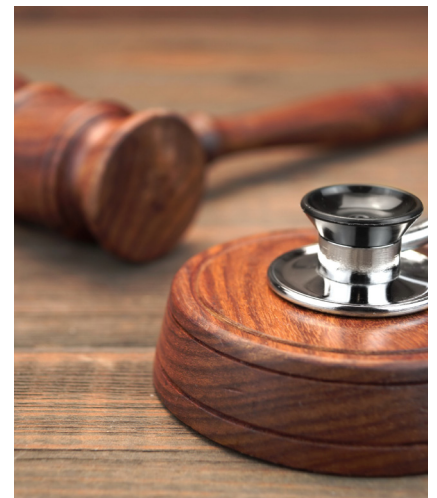

A social worker will arrive on the premises of the defendant. If access is permitted, the in-person biopsychosocial will be performed on the defendant. The interview will take 1-2 hours.

Next we contact all collateral parties authorized by the defendant. These collateral parties will be contacted by telephone and interviewed as well. Three attempts will be made to contact all collateral. In-person collateral interviews can be requested, but at an additional cost.

 **Step 3  
Report**

After our social worker has completed the interviews, we will contact you immediately. We will relay our findings, or alert you of issues we may have encountered. We will then prepare a narrative report.

The narrative report will be faxed to the attorney and available for download immediately. A link for download will be sent to the attorney to make the process as seamless as possible.

**Services**

**Standard BPS Interview includes:**

In-person biopsychosocial interview of defendant, phone calls to collateral(s) and narrative report. *\*All additional requested services such as in-person collateral interviews or court appearances are billed hourly.*
